

Control & Motion, Inc.

2451 Cumberland Pkwy., Ste 3456
Atlanta, GA 30339
Phone: (404) 377-3177
Fax: (404) 378-4446
email: info@cmiservos.com

Control & Motion, Inc. provides representation, sales and support services for these top-rated automation component companies:

Emerson Industrial Automation – Motion Made Easy

High speed digital servo drives, controllers and related motion control products. Rated easiest to setup and use servos in the motion control industry, even by our competitors. Ethernet-IP. See all the Emerson drives at www.emersonct.com.

Control Techniques – Performance Drives

Your single source for AC drives, DC drives, Servo drives and drive systems, from 1/3 to 1600 HP. See the new UnidriveSP – a truly universal drive that operates as an open-loop VFD, closed-loop vector drive, or true closed-loop servo drive, with parameters stored on a removable smart-card. SM-EZ Motion modules make any servo app. easy to commission.

Exlar Corporation - Linear and Rotary Actuators

Patented roller-screw servo and “force tube” actuators for high speed linear positioning and replacement of trouble prone ball screws, pneumatics and hydraulic systems. Also: Rotary servomotors with integrated gearing.... see www.exlar.com.

Tri-Tronics Smart Photoelectric Sensors

High performance photoelectric sensors, fiber optic light guides, and controls. Color registration mark sensors, label sensors, luminescence UV, and general purpose sensors for packaging, machine automation, inkjet printing, coding, offset printing, product inspection, labeling and material handling industries. Also true color sensors to replace expensive vision systems. see www.ttco.com.

Stober Drives, Inc.

ServoFit planetary gearheads, high precision gearing in a small package – both inline and right angle, and SMS (Servo Modular System) inline, offset, and right angle solid and hollow shaft helical bevel gear reducers for small to large servo motors.... see www.stober.com.

R+W Flexible Couplings, Torque Limiters and Line Shafts

R+W America manufactures a complete line of backlash free flexible shaft couplings, torque limiters, and line shaft couplings with torque ratings from 0.1 to 10,000 Nm. Delivery in as fast as 24 hours... see www.rw-america.com

Genesis Automation and Signaworks

A complete line of industrial signal products, power supplies, encoders, programmable relays, DIN rail terminal blocks, disconnects, I/O modules, panel meters and process displays, .timers, Counters and more... see www.signaworks.com and www.genesisautomationonline.com

CMI also provides start-up and programming assistance for all of our motion control products. With over 50 years of combined experience in the industry, you can rest assured that CMI has the solution to your motion control needs.
